

How To Save or Share A Picture From Fotoflexer.com

Saving to Your Own Account:

1. Once you have finished editing you need to go up to the upper-left hand corner of the page and press save.

2. Once you have pressed save, it will ask you where you want to save it at and for this demonstration you need to press Save to Foto Flexer.

3. Once you have selected Save to Foto Flexer all you need to do is select what format you want to save it as(jpeg., png., ext.) and then select what album you want to save it to.

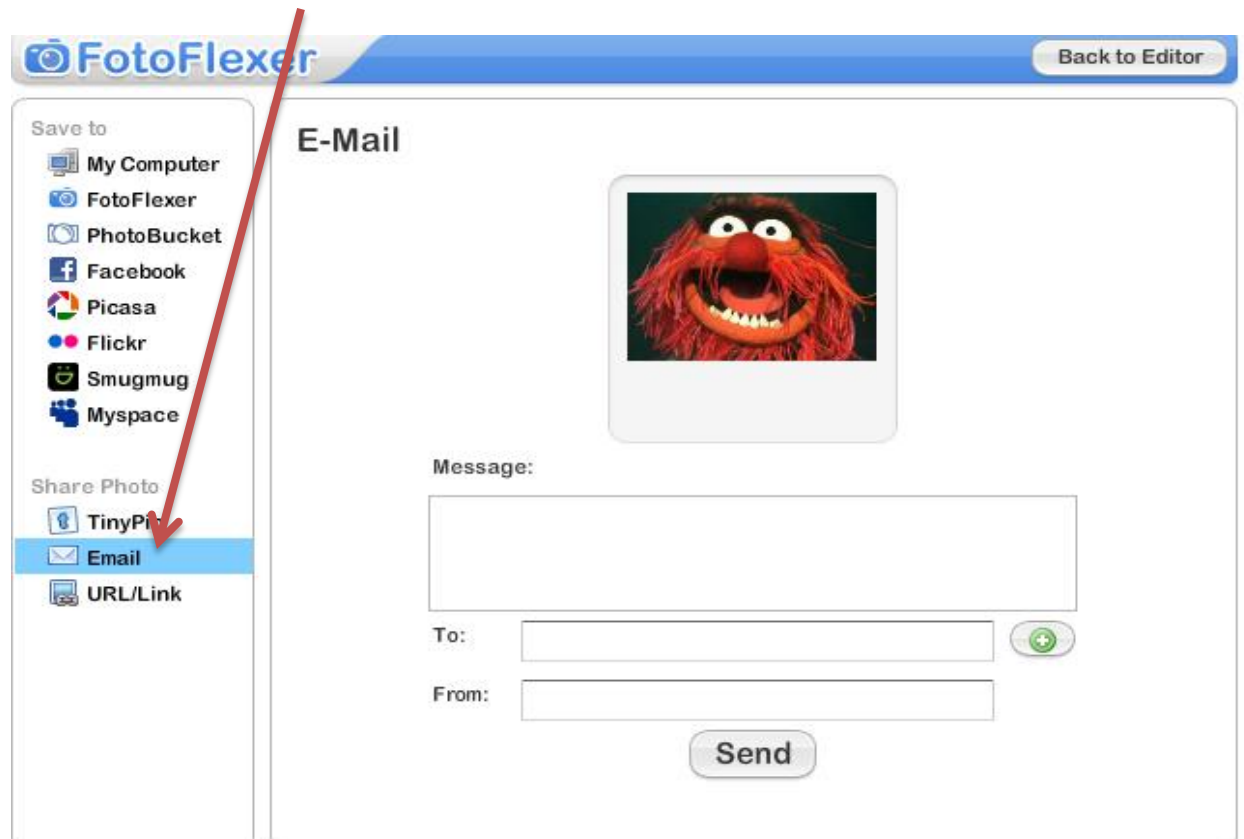

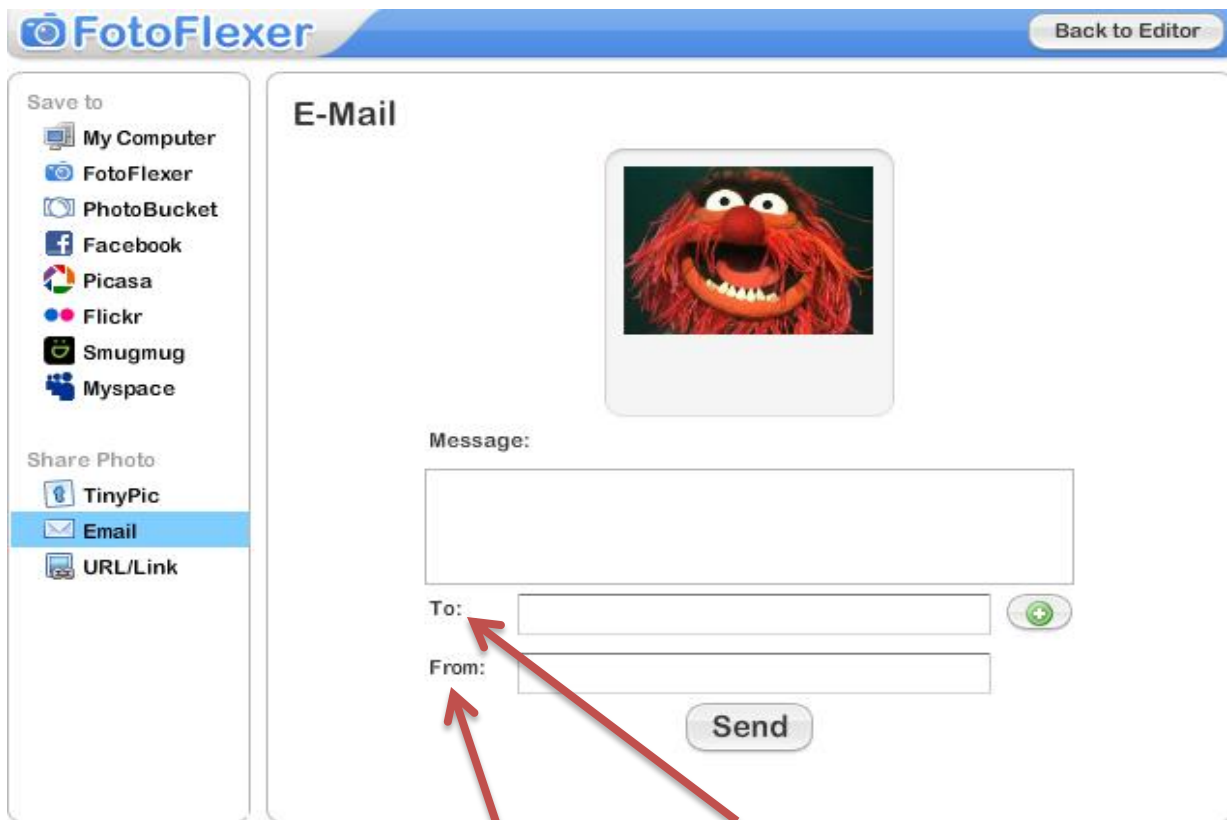

4. Now press Save.

E-mailing to Self or Others:

- 1 To save to e-mail this picture that you have just edited you will need to go to Email under the Share Photo column.

- 2 Now you need to fill out who it is from and who it is to.
- 3 If you want to insert a message for whoever you are sending the picture to you will need to type your message in the Message box.

How to Share Your URL link

- 1 When saving just your URL link you will just need to click on URL/Link under the Share Photo column.

- 2 Then click copy to clipboard and once it is copied you can paste it by pressing paste and go when right clicking.
